E VALET SYSTEM

Safir Plus has continually invested in technology to serve you better. We have developed a user and operations-friendly application eValet (Valet Parking Software), for the valet parking operations that makes it highly efficient by reducing guests' wait time for their car's retrieval, elevating team performance and eradicating all backend manual reporting processes. A click away is the performance measures of the Team, reports, and many more things.

- Reduces wait time for the guests for the vehicle retrieval.
- Scans the bar-coded tickets and eradicates the recording errors
- Daily, Monthly, and time-wise reports.
- Team performance measure
- Vehicle Inventory
- Data back-up
